Doti, Nepal, 10800

Key skills

- UiPath Orchestrator, Studio, Apps, AI Centre, Document Understanding, Task Mining
- Power Automate Cloud Flows, Desktop Flows, AI Hub, Solutions, Power Apps
- Web, Desktop, REST API, Excel, Email Automation
- Automation solution Scheduling, Alert, Monitoring, Reporting
- Automation scripts with Python, Typescript, C#, .Net
- Basic knowledge on Automation Anywhere, Blue Prism

Education

Bachelor of Technology, Computer Science and Engineering

from Aditya Engineering College, AP, India

Graduated 2021

Summary

Results-driven UiPath Developer with 3+ years of experience designing and implementing automation solutions across Logistics, Finance, and Healthcare sectors. Utilized Task Mining and Power Automate to enhance process efficiency. Proficient in Python, Node.js, and SQL, with expertise in developing scalable, maintainable workflows and integrating emerging technologies to drive operational excellence.

Career history

Senior Software Engineer at Marlabs Innovations Pvt Ltd

Jan 2025 – Current

Key responsibilities

- Migration of bots from UiPath to Power Automate utilizing Cloud flow, Desktop flow, Work queue and AI Builder
- Developed Power Automate Flow Template, Coding Standard, Reusable components
- New UiPath/Power Automate process development
- UiPath jobs monitoring, debugging and error fixing

Achievements

- Migration to Power Automate from UiPath by reducing the cost by 50%
- Optimization and Enhancement of the old process resulting in reduced runtime and better error handling

Software Engineer at Marlabs Innovations Pvt Ltd

Jan 2024 – Jan 2025

Key responsibilities

- UiPath bot old process enhancement by implementing ReFramework template, Dispatcher-Performer concept, utilizing Assets and reusable components
- UiPath jobs monitoring, support, debugging and error fixing
- Developed ReFramework based Dispatcher-Performer process template
- Developed reusable email component (send, get and movie email)

Achievements

- ReFramework template, Dispatcher-Performer concept and Reusable component decreased overall development time by

improving process efficiency and also improving code standard significantly

Associate Software Engineer at Marlabs Innovations Pvt Ltd

Dec 2021 – Jan 2024

Key responsibilities

- Migration of all UiPath Windows-Legacy based process to Windows based processes
- Writing python scripts to automate process flow
- UiPath jobs monitoring, debugging and error fixing
- Development of UiPath apps for end user to execute automation process on-demand
- Modification of coding standard document to include new standards

Achievements

- Smooth operation of the bots in production

Interests

- GenAi, Agentic Automation, LLMs
